Sage Environmental Services Acquires Executive Green Clean, LLC

Sage Environmental Services, Inc. of Seattle has successfully completed the acquisition of Executive Green Clean, LLC of Bellevue, WA

(Seattle, WA) – August 20th – Sage Environmental Services announces today that it has successfully completed the acquisition of Executive Green Clean, LLC of Bellevue, WA. The merger brings two leading Green Puget Sound janitorial, facility maintenance and housekeeping businesses under one roof. The conditions of the sale were not immediately released.

Executive Green Clean, specializing in mid to high-rise, final inspection and move-in cleans was previously managed by Iain Cameron. Mr. Cameron will stay on board with Sage Environmental as head of Business Development. “The merger between Sage and Executive Green Clean brings together two companies focused on two different market segments [commercial and multi-family] yet sharing the same 'green' philosophy.” Cameron said. “The result of the merger has been non-toxic and has resulted in exponential growth, bringing a healthier environment to many more happy customers.”

Founder/President of Sage Environmental Services, Julie Pond will oversee the transition. “Both Sage and Executive Green Clean are pioneering green cleaning here in the Puget Sound region.” Said Pond. “We are thrilled to join forces and continue to encourage environmentally responsible janitorial, facility maintenance and residential housekeeping services across the region.”

The acquisition of EGC brings a new chapter to Sage, expanding the services provided and improving visibility in the region. Both companies are committed to environmental responsibility, sustainability, excellence in customer service and providing educational resources to all of their clients.

About Sage Environmental Services, Inc.

In business since 2001, and incorporated in 2009, Sage is a pioneering leader in Green Facility Maintenance. Sage provides world-class eco-friendly services, including full-service Janitorial, Organic Landscaping, Watershed-safe Fleet Washing and Green Consulting for busy facility managers who do not have the time, energy or resources to “go green” without some assistance. All Sage clients may receive free assistance in waste reduction, LEED points, green awards and greener purchasing.

About Executive Green Clean, LLC

EGC has been leading the Green Cleaning industry in the Puget Sound region, serving Seattle, the North Sound, Eastside and South Sound areas. EGC specializes in mid to high-rise multi-family housing maintenance, cleaning and janitorial services. Its client basis includes some of the leading apartment management companies in the nation.
